"The man who really wants to do something finds

WHO IS THE FEDERAL LAND BANK?

ABOUT the time the pictures on the opposite page were made — 1917 — The Federal Land Bank of Spokane received its charter. Forty-two years ago.

SINCE that date thousands upon thousands of long term loans have been made in Washington, Oregon, Idaho and Montana, their chartered territory.

THEIR operations are through the National Farm Loan Associations who are in daily contact with local farmers.

AFTER forty-two years of service to farmers, imagine our surprise, if you please, when people tell us they have never heard of the Federal Land Bank or the National Farm Loan Association.

SOMEWHERE along the line we have fallen short in getting acquainted with you; therefore, the Colfax-St. John National Farm Loan Association is taking this opportunity to let the people in Whitman County know that we exist, and are willing and able to give financial assistance to every farmer, part-time farmer, and business and professional man who owns and operates a farm.

If You Need A Long Term Loan, Contact Us.

By an act of Congress this year the National Farm Loan Associations' name will be changed

a way; the other kind finds an excuse."
